SUMMARY

Informatics Engineering graduate with expertise in **Full-Stack Web Development** and **Artificial Intelligence**. Experienced in delivering production-ready applications using **Next.js, MERN Stack, NestJS, and Laravel**, as well as authoring scientific research in Deep Learning and Computer Vision. Active technical instructor and Google Gen AI speaker dedicated to building impactful digital solutions and driving collaborative innovation.

EXPERIENCE

SMARTBRIDGE
Full Stack Development Instructor Intern ***January 2026 – Present***

- Instructed MERN Stack (MongoDB, Express.js, React, Node.js) development to 600+ university students across institutions such as Universitas Tarumanagara, Universitas Amikom Yogyakarta, and Universitas Pendidikan Indonesia.
- Served as Key Speaker for nationwide Google Gen AI workshops, presenting foundational AI concepts, Prompt Design, and Generative AI model implementations to over 1,000+ attendees.
- Conducted intensive hands-on MERN Stack technical workshops for 60+ university faculty members at Universitas Tarumanagara to foster institutional software engineering curriculum readiness.
- Guided 150+ participants as a Teaching Assistant in the Salesforce Talent Accelerator Program (STAP), delivering coaching on cloud architecture, Apex, Lightning Web Components (LWC), and declarative automation.

PT DWITUNGGAL JAYA ABADI / DELTA ABADI INTERNASIONAL
IT Support Intern ***October 2025 – February 2026***

- Architected and deployed the CPMI Process Management System, an end-to-end full-stack monorepo application using Next.js (App Router), NestJS (REST API), Prisma ORM, and SQLite to manage international migrant worker placements.
- Implemented 4-Role Role-Based Access Control (RBAC) (Super Admin, Officer, Manager, Candidate), comprehensive audit trails, automated candidate milestone tracking, and dynamic Swagger API documentation.
- Integrated client-side state resilience and asynchronous data synchronization using Zustand and TanStack Query, optimizing document verification workflows across multiple destination countries (e.g., Japan, Germany, Saudi Arabia).
- Managed centralized deployment pipelines and supported operations for 800+ candidate records, successfully facilitating departures for 300+ migrant workers while maintaining zero data-loss infrastructure.

BADAN PUSAT STATISTIK (BPS) KOTA SUKABUMI
Full-Stack Web Developer Intern ***February 2025 – July 2025***

- Engineered and implemented an automated Web-Based Attendance & Activity Monitoring System for internship participants, successfully published in the SOCIETY: Jurnal Pengabdian Masyarakat (2026).
- Implemented GPS Geofencing validation using the Haversine Formula and webcam selfie snapshots to eliminate attendance fraud and automate radius compliance checking.
- Modernized the system architecture into a dual responsive layout with automated daily activity reporting, administrative leave approval workflows, and instant Excel (.xlsx) recapitulation exports.
- Streamlined administrative attendance processing by 80%, eliminating manual paper signatures for 50+ internship participants and supervisors while achieving 100% data audit compliance during monthly reporting.
- Collaborated directly with institutional leadership via weekly Agile sprints, reducing manual attendance recap time and reporting errors across all operational units.

EDUCATION

Nusa Putra University – Sukabumi, Indonesia ***(September 2022 – September 2026)***
Bachelor of Informatics Engineering (S.Kom.) — ***GPA: 3.84 / 4.00 (Cum Laude)***

- **Relevant Coursework & Focus:** Full-Stack Web Engineering, Artificial Intelligence & Deep Learning, Database Architecture, Cloud Computing, Software Engineering (Agile/SDLC).
- **Academic Highlights:** First Author & Presenter at SENTIMETER National Seminar (2025); Co-Author of SINTA 2 Accepted Journal at JUTIF UNSOED (2026); Participant at ICITACS International Conference (2024) & ICANDIT (2026).

SELECTED PROJECTS

SahabatBK – School Counseling & Anti-Bullying Platform

Live Demo: sahabat-bk.vercel.app | GitHub: github.com/DimasArbiArdian/sahabat-bk

- Architected a comprehensive multi-portal digital counseling ecosystem featuring 3 dedicated role interfaces (Student, Guidance Counselor, and School Administrator).
- Built a 100% anonymous whistleblower reporting box to empower students to safely report bullying incidents, complete with end-to-end counselor investigation status tracking.
- Integrated an interactive Holland RIASEC Career Assessment, daily emotional mood tracking, and direct WhatsApp counseling integration.
- Implemented secure session handling using JWT authentication (jose, bcryptjs) and automated student counseling case history exports to CSV.

Dompet Tracker – Personal Finance & Wealth Management System

Live Demo: dompet-tracker.vercel.app | GitHub: github.com/DimasArbiArdian/dompet-tracker

- Developed a full-stack personal finance platform with custom Editorial Warm-Modern UI featuring multi-wallet reconciliation (Bank, E-Wallet, Cash) and instant keyboard shortcuts.
- Designed a proprietary Financial Health Score algorithm (0–100) evaluating 4 key financial planning pillars (Savings Ratio, Debt Burden, Emergency Runway, Cashflow Discipline) alongside monthly Burn Rate forecasting.

- Created specialized modules for category-based budget alerts, two-way debt/loan installment management, recurring billing calendars, and A4 print-ready executive PDF financial statements.
- Implemented on-the-fly privacy mode (balance masking via keyboard shortcut) and dynamic tag-based expense aggregation.

MBG Nutrition Detection – AI-Powered Free Nutritious Meal Classifier

Research Paper Accepted at Jurnal Teknik Informatika (JUTIF) – SINTA 2 Accredited

- Co-authored an AI-driven dietary assessment pipeline combining YOLOv8n object detection for multi-item food localization with a Random Forest classifier for nutritional adequacy evaluation.
- Processed and annotated complex meal imagery under the Indonesian National Free Nutritious Meal (*Makan Bergizi Gratis*) initiative
- Evaluated multi-nutrient classification performance, achieving high precision in macro-nutrient balance prediction across real-world dietary datasets.

AI Fruit Ripeness Classifier – Deep Learning Computer Vision

Published & Presented at SENTIMETER National Seminar (2025)

- Built a transfer-learning convolutional neural network utilizing the VGG16 architecture to automate citrus ripeness classification for post-harvest agricultural sorting.
- Enhanced classification accuracy significantly from 56.35% to 95.91% and decreased categorical cross-entropy loss from 0.9285 to 0.1721 through hyperparameter optimization, learning rate tuning, and data augmentation.
- Authored the scientific manuscript and presented technical research findings before academic peers as first author.

Kios Beras FIFO Inventory & POS Web App

- Developed a cloud-based Point of Sale (POS) and inventory tracking application for retail grain distribution using Google Sheets as a relational backend.
- Implemented an automated First-In, First-Out (FIFO) stock queue engine stored in serialized JSON format to dynamically calculate Cost of Goods Sold (COGS/HPP) and net profit per transaction.
- Designed multi-unit conversion logic (e.g., Sack to Kg), automated cashflow ledger updates (*Buku Kas*), and real-time stock alert thresholds.

SKILLS

- **Programming Languages:** Python, TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3
- **Frontend Frameworks & UI:** Next.js (App Router), React.js, Tailwind CSS, Zustand, TanStack Query, Recharts, Leaflet.js
- **Backend & APIs:** NestJS, Node.js, Express.js, Laravel, RESTful API Architecture, Swagger (OpenAPI)
- **Databases & ORM:** MongoDB (Mongoose), PostgreSQL, MySQL, SQLite, Prisma ORM 6
- **AI, Deep Learning & Cloud:** YOLOv8, CNN, Random Forest, Gemini API / LLM Integration, Amazon Web Services (AWS), Alibaba Cloud

- **Developer Tools & Workflow:** Git/GitHub, npm workspaces (Monorepo), Google Apps Script, Vite, Agile/Scrum
- **Soft Skills:** Technical Mentoring & Instruction, Public Speaking, Cross-Functional Team Leadership, Analytical Problem Solving, Agile Collaboration

LANGUAGE

- Bahasa Indonesia: *Native*
- English – *Intermediate*

EXPERTISE CERTIFICATE

- **MongoDB Certified Associate Developer** – *MongoDB* | *Credly Badge*
- **Alibaba Cloud Certified Associate (ACA) – System Operator** – *Alibaba Cloud Academy (Valid thru May 2027)*
- **IT Specialist in Python** – *Certiport* | *Credly Badge*
- **AWS Academy Graduate – Machine Learning Foundations** – *Amazon Web Services* | *Credly Badge*
- **Salesforce Talent Accelerator Program (STAP)** – *SmartBridge & Salesforce Partner (Apex, LWC, Agentforce)*
- **Gemini Certified Educator Suite (Higher Education & General)** – *Google for Education (Valid thru June 2029)*
- **Prompt Design in Vertex AI** – *Google Cloud* | *Credly Badge*
- **LLM-Based Tools & Gemini API Integration for Data Scientists** – *Hacktiv8 & Maju Bareng AI (Google.org)*
- **HCIA-AI V3.5 Course Completion** – *Huawei ICT Academy*
- **Belajar Machine Learning untuk Pemula (90 Jam)** – *Dicoding Indonesia (Google Authorized Training Partner)*
- **Public Speaking Certified** – *Energetic People Development Center (EPDC)*
- **Tes Potensi Akademik (TPA Bappenas): Score: 518.17** – *(Bina Cipta Seleksindo / Koperasi Pegawai Bappenas)*

PUBLICATIONS & SCIENTIFIC RESEARCH

- **Insany, G. P., Ardian, D. A., & Somantri.** (Accepted – Forthcoming 2027). YOLOv8n and Random Forest for Nutritional Adequacy Classification of Indonesian Free Nutritious Meal Images. Jurnal Teknik Informatika (JUTIF) — SINTA 2 Accredited (Vol. 8, No. 3).
  (Role: Second Author / Machine Learning Pipeline & Image Processing)
- **Ardian, D. A., & Thohir, M. I.** (2026). Development and Implementation of a Web-Based Attendance Monitoring System Using Laravel and Tailwind CSS. SOCIETY: Jurnal Pengabdian Masyarakat (Vol. 5, No. 2, pp. 308–313).
  (Role: First Author & Lead Software Engineer)
- **Ardian, D. A., Saffira, A., Evrillia, T., Sulistiawati, F., & Putri, D. M.** (2025). Klasifikasi Tingkat Kematangan Buah Jeruk Menggunakan Arsitektur VGG16. Prosiding Seminar Nasional SENTIMETER 2025.
  (Role: First Author & Technical Presenter)

- **Somantri, Ardian, D. A., Nurbilkis, G., & Resmyati, E.** (2024). Upaya Peningkatan Pengetahuan dan Keterampilan Masyarakat Berbasis Pemberdayaan Sumber Daya Lokal Melalui Kegiatan KKN Tematik. Jurnal Pengabdian Masyarakat Nusa Putra.
  (Role: Co-Author / Field Technology Facilitator)
